

contracts are financed with funds that belong to a Multiannual Financial Framework (MFF) of ECHA subsequent to the MFF 2014-2020.

The rules on access to procurement do not apply to subcontractors. Subcontracting may not be used with the intent to circumvent the rules on access to procurement.

To enable *the Contracting Authority* to verify the access, each tenderer must indicate its country of establishment (and in case of joint tender – the country of establishment of each group member) and must present the supporting evidence indicated below. The same document(s) could be used to prove country/-ies of establishment and the delegation(s) of the authorisation to sign as described in **section 4.3**.

Tenderer identification documentation

To identify themselves tenderers must fill in and submit in their tender the three (3) following forms:

1. **Tenderer's Administrative Data form**⁶, to be completed with the names of all the economic operators involved in the tender clearly indicating the role of each one.

2. **Legal Entity Form**⁷

All tenderers must provide their legal entity form signed by their legal representative. The above form must be accompanied by the evidence as indicated in the form

- In case of a joint tender all economic operators shall provide the legal entity form and related evidence;
- Subcontractors are only obliged to provide the legal entity form without the evidence.

3. **Bank Account Form**⁸

The Bank Account form shall be duly filled in and signed by an authorised representative of the tenderer, or Group leader, and their banker.

2.3 Registration in the Participant Register: why register?

Any economic operator willing to submit a tender for this call for tenders must be registered in the [Participant Register](#) - an online register of organizations and natural persons participating in European Commission's calls for tenders or proposals (participants).

On registering each participant obtains a Participant Identification Code (PIC, 9-digit number) which acts as its unique identifier in the Participant Register. A participant needs to register only once – the information provided can be further updated or re-used by the participant in other European Chemicals Agency's calls for tenders.
