

23

24 **Table S1: Statistical results of the Shapiro (W), Pearson correlation (r) and holm**  
 25 **Bonferroni tests, with their p values, applied on our dataset of metal concentrations in the**  
 26 **different bat tissues and soil concentrations (NSRI dataset).**

| Metal | Statistical test                  | Kidneys           | Liver             | Stomach           | Bones             | Soil              | Fur               |
