

4.6.4 Learners' computer literacy and utilisation of online electronic books

The study also explored the influence of learners' computer literacy on utilisation of online electronic books. In order to accomplish this task, respondents were asked to indicate the extent to which learners' computer literacy influenced utilisation of online electronic books. The results are summarised in Table 4.31.

Table 4.31: Learners' computer literacy and utilisation of online electronic books

As a result of computer literacy able to use online electronic books	Frequency (f)	Percentage %	Cumulative percent
Not at all	61	23.6	23.6
Less extent	79	30.4	50.0
Not sure	55	21.1	75.2
Great extent	22	10.6	85.7
Very great extent	37	14.3	100.0
Total	259	100.0	
Mean	2.61		

On the basis of data shown in Table 4.31, it emerges that 61 (23.6%) and 79 (30.4%) respondents scored in the Not at all and less extent level respectively. The information in Table 4.31 also reveal that 22 (10.6%) and 37 (14.3%) respondents scored in the great extent and very great extent, respectively while 55(21.1%) said they were not sure. The data gives the impression that majority 140 (54%) respondents did not support the view that learners' computer literacy influence utilisation of online electronic books compared to only, 59 (24.9%) respondents supporting the opinion. The implication of this finding is that there was less influence of learners' computer literacy on utilisation of online electronic books among the distance learning standards at the University of Nairobi.
